WASHINGTON, Aug. 25.—(UP)—Chairman Fred A. Hartley, Jr., of the House Labor Committee said today an effort to strengthen the Taft-Hartley Act "to give the public real protection against nationwide strikes" may be made at the next session of Congress.

"The Taft-Hartley Act was necessarily a compromise and could not handle all problems adequately," the New Jersey Republican said in an interview. "We definitely need something with teeth in it to settle this question of nationwide strikes."

The measure, as it finally became law, contained a provision authorizing the federal government to secure 75-day court injunctions against nationwide strikes that imperil public health and safety. Hartley said.

### TRIED TO BEAT TRAIN; FIVE MEET DEATH

### ALL YOUNG OCCUPANTS OF AUTO KILLED AT HERRIN, ILL.

HERRIN, Ill., Aug. 25.—(UP)—A railroad engineer said today that the driver of an automobile apparently was attempting to beat his train to a grade crossing when the engine ploughed into the car and killed five persons.

All of the occupants of the car were killed in the accident yesterday one mile east of here and 10 miles south of West Frankfort where nine young men and girls were killed last March 17 when their car was hit by a Chicago, Burlington and Quincy freight train.

An inquest was to be held today.

Yesterday's crash also involved a Burlington freight. The dead were Joseph Miller, 21, Johnston City, Ill.; the driver; Clyde Cobb, 20, Johnston City; Dale Yantz, 21, Herrin; Paul Hale, 16, Herrin, and Dante Underwood, 14, Herrin.

The crash knocked off the engine's cowcatcher and snapped off an air hose which left the train without brakes. Engineer J. W. Malleck, 65, Centralia, Ill., cut the throttle and the train coasted to a halt a mile from the crossing. The wreckage of the car was still visible.

All of the occupants of the car were dead when police extricated them from the wreckage within 30 minutes after the accident.

### LITTLETON, COLO., Aug. 25

### Two-Way Radio Taxis Operating

The Stoner Cab line, operated by Robert Stoner, has completed the installation of two-way radios in three taxis which are operating.

Monday morning we had the pleasure of riding one of these radio equipped cars. It is an uncanny proposition to sit in the car and talk to a central station that is some miles away without the use of wires or anything visible to carry the voice. The cars are equipped with receivers and sending sets and the office is equipped with the same devices, and all calls go through the central office. The master unit is installed at the home of Mr. Stoner.

The new service speeds up calls and at the same time will save many miles of driving as the driver will wait in any part of the city for an order from the central office and he may be quite near it when the order is given. It is an interesting installation and is being used generally by cabs and large fleet operators throughout the county.

### HOG MARKET

Hogs advanced 25 cents on the 100 at the Indianapolis yards today with the top reaching \$28.25 for the first time in more than a week. This top price was paid for choice barrows and gilts. Other weights went up accordingly.

### MRS. EDISON PASSED AWAY SUNDAY NIGHT

### INVENTOR'S WIDOW ONCE HAILED AS MOST BEAUTIFUL WOMAN

NEW YORK, Aug. 25.—(UP)—Mrs. Mina Miller Edison, 82, widow of Thomas A. Edison, the inventor, died last night at Presbyterian hospital where she had been critically ill for several weeks.

Funeral arrangements were to be made today.

Death was attributed by her physician, Dr. James A. Goss, Jr., to a cardiac failure. Her three children were at her bedside when she died at 7:45 p. m.

Mrs. Edison had entered the hospital July 16 and her condition had been considered grave since last Wednesday.

Her home was in West Orange, N. J.

Mrs. Edison was hailed by artists as one of the most beautiful women in America when, at the age of 21, she became the second wife of Thomas A. Edison.

The marriage was in 1886, when the great inventor was 39 and in his most productive period as "the wizard of Menlo Park."

Mrs. Edison quickly assumed the position of a buffer between the inventor and the public, to give him the time he needed for his work. She had a wide interest herself, having led in the national fight for temperance and juvenile recreation facilities.

Mrs. Edison was born in Akron, O., July 6, 1865, the daughter of Mr. and Mrs. Lewis Miller.

After the inventor died in 1931, Mrs. Edison renewed a childhood friendship with Edward E. Hughes, a lawyer and steel manufacturer of Franklin, Pa. They were married in 1935 and Hughes died five years later. She later reassumed the name of Edison.

## Reds Release Three Yanks

SEOUL, Aug. 25.—(UP)—Three American soldiers released after 13 days in Soviet hands today that a camera one of them dropped when they stumbled onto a Russian outpost probably was the only reason they were detained.

The three showed no sign of hardship, and appeared to be more concerned over what action the army would take against them than over their experiences in North Korea.

T-5 Thomas F. Pugsley, 19, R. 3, Renton, Washington; Pfc. John D. Hopfe, 19, (1510 West 54th St., Seattle Wash.; and Pfc. Gerald K. Geffen, 18, Port Chester, N. Y., were turned back to an American officer yesterday at the border point where they were seized by the Russians Aug. 12.

The self-appointed spokesman for the three, Hopfe, said the Russians treated them all right, but the north Korean constabulary asked the Soviets to "string them up."

They had gone on duty along the Soviet-American zonal border only two days before they were picked up. It was their first detail on a routine telephone line check.

**Fishin' Fun**

After a weeks vacation, and a half hour spent brushing the cobwebs off of the old type-writer, FISHIN' FUN is back in the harness again to report the doings of the local hopefuls. The first thing to do is report the new standings in the big contest, which is rapidly nearing the end for this season. Frank Woods, of Fillmore, landed a beauty of a largemouth which he said at the time it was caught weighed about seven pounds. However, Mr. Woods removed the entrails from the fish before bringing it in, and according to our scales, and those of a neighboring grocer, the Bass weighed an even five pounds, which according to the judges, is the official weight recorded in the contest. This whopper currently puts Frank in second place behind Don Duncan with his five pound, ten ounce entry. Kenny Sittes is in third place with his four pounder. The big contest will officially end September 15th at twelve o'clock noon.

**POST 58 TO PLAY**  
**MUNCIE TONIGHT**

The strong Muncie nine will be here this evening to try to make it 25 straight wins. The Legion will be trying to stop their streak at 24.

This game should prove to be one of the best games witnessed at Robe Ann Park for a long time, as both teams will be fighting for their first semi-final championship.

With Jobe on the mound for the local and Muncie's Van Dyne throwing against him, this game should be a great pitching battle.

Post 19 of Muncie drubbed Wayne Post of Indianapolis yesterday 16 to 0.

Muncie has won 24 straight games this season and most of them by large scores, but the local Legion Post hopes to turn the tide for them tonight.

This team is composed of two good pitchers and a lot of strong hitters.

**SWIMMING POOL**  
**CLOSED SATURDAY**

It is a sin to make the announcement during the current heat wave, but the swimming pool in Bowman gymnasium will be closed. All summer long the pool has been a popular spot for the boys and girls of Greencastle and Putnam county. Many have learned to swim, several have passed scout tests and hundreds have just enjoyed swimming.

With summer school over the life guards and custodians will be on vacation and the pool has to be cleaned. An effort will be made to open the pool during the evening after school starts again.

**Tropical Storm Has Subsided**

GALVESTON, Tex., Aug. 25.—(UP)—A minor tropical hurri-

cane blew itself out in the interior of Texas today after lashing Galveston and Texas City with high winds and rain.

Coastal areas had prepared for a much stronger storm after it was first reported 150 miles southeast of here Saturday afternoon. The full force was dissipated, however, as the storm center hovered off the coast for 24 hours.

Only one person was known to have died as a result of the storm. Joseph M. Taber, Galveston, was electrocuted when he tried to move a live wire with a wet stick.

A fishing boat which left Houston for Galveston Bay Friday still was unreported at Gulf Port. Authorities said the light skiff might have sunk in the hurricane. The owners declined to identify those aboard.

Meteorologist F. J. Naughton, in charge of the Galveston Weather Bureau, said that gusts were clocked at up to 75 miles per hour at the height of the storm. Hurricane winds are 75 miles per hour and up.

The winds roared into the city at about 4 P. M. (CST) yesterday after churning coastal waters into foaming breakers.

Ten minutes later Galveston's electric power supply failed.

Many of the 75,000 residents fled from their homes to sturdier buildings.

**MORE WAR BRIDES**

LONDON, Aug. 25.—(UP)—Maj. Gen. Clayton L. Bissell,

military attache to the American embassy here, said today there are about 1,200 British war brides and their children still awaiting shipment to the United States more than two years after the end of the war.

Bissell's office produced figures showing that 33,403 British war brides and 13,740 children have already journeyed to America to join their G. I. husbands and fathers.

The army still has roughly 700 adults and 475 children awaiting passage to the States. They are leaving at the rate of 150 a day by commercial transportation.

The army has stopped carrying them in transports but Uncle Sam still foots the bill for passage.

## Critics Acclaim Youthful Pianist

CHICAGO, Aug. 25.—(UP)—Three-year-old Margaret Harris played today with Rozarian, her doll, unperturbed by the rave notices of critics acclaiming her as a prodigy pianist.

Margaret hasn't learned to read newspapers yet. But she has learned to read music. And that's what the critics were interested in.

The tiny negro girl played her first formal recital yesterday. She tripped out on the stage with Rozarian tucked under one arm, curtsied, and then set the doll

on a special chair where it could "hear what I play."

Then Margaret sat down to the baby grand piano which was equipped with raised pedals so her tiny legs could reach them. She tickled the keys for a few seconds and the swung into the music box notes of Bach's minuet.

At the last note the audience stood up and thundered applause.

Her next selection was by a man who had been a prodigy himself as a boy—Mozart. When she completed excerpts from "The Magic Flute", her piano teacher, Mrs. Mildred Godfrey Hall, had to ask the audience to restrain its applause until intermission time.

She appeared completely at ease as she presented compositions by Schubert, Tschalkowsky Brahms and other composers. She yawned, audibly, half way through "Ave Maria," but her playing never faltered.

This measure, before it was modified by the Senate, would have classified a nationwide strike imperiling public health and safety as a "monopolistic practices strike." Unions engaging in such strikes would have been subject to three penalties.
